

MEDBIO

MEDICAL & BIOTECH MANUFACTURING

ISO 13485:2016 • FDA Registered

Headquartered in West Michigan, Medbio is a contract manufacturer offering innovative manufacturing solutions for the medical and biotechnology industries. We specialize in precision injection molding, assembly, and packaging.

Our facilities include certified ISO Class 8 & Class 7 cleanrooms for molding, along with several certified Class 7 cleanrooms for assembly. Our six manufacturing facilities allow us to serve you with increased capacity to handle any project and accelerate your speed-to-market.

From design to packaging, our team has the knowledge, passion, and experience to deliver quality solutions to your most complex manufacturing challenges.

FULL-SERVICE CONTRACT MANUFACTURER

- Product Development
- Project Management
- Precision Injection Molding
- Cleanroom Molding
- Cleanroom Assembly
- Cleanroom Packaging
- Flexible Capacity
- Rapid Turnaround
- Prototypy Plus

INJECTION MOLDING

- Medical Grade Thermoplastics
- Implantable Thermoplastics
- Silicone
- Insert & Over Molding
- Two-Shot Molding
- Micro Molding
- Thin-Walled Parts/Coining
- Hand-Loaded Cores to Full Automation
- Scientific Process Development (RMT)
- Kistler Cavity Pressure Sensors
- In-house Tooling

QUALITY & METROLOGY

- ISO 13485:2016 Certified
- FDA Registered
- Fully Capable Metrology Lab
- Full Annual Internal Audit Schedule
- Tailored Quality and Validation Programs

AUTOMATION

- Robots
- End-of-Arm Tooling
- Cavity Separation
- Automated Packaging
